BREAKDOWN

★ VULNERABILITIES

No known vulnerabilities found in this contract

★ BACKDOORS

We have not found any backdoor in this contract

★ FEES & FAIRNESS

There are no buying/selling fees in the contract

★ DECENTRALIZATION (FULL POINT WITH A DISCLAIMER)

The contract does not suffer from centralization issues but it is still important to notice that 24.67% of the supply will be unlocked on December 22 to the team. This is not an untortox practice in the DEFI space as funds could indeed be usefull to support Cairo ecosystem and its investors, the DEFI team does not believe Cairo should be penalized for this. In a pure decentralization optic the smart contract could be optimized to not require human interference and manage these funds by itself. Since there is a certain level of human trust involved, we have decided to award 1 star with a “- (minus)” that will cancel out the bonus

★ PRIVILEGES

There are no privileges in the contract

◆◆◆ AUDIT BONUS This token does not require an audit as it is made using unicrypt.network tools
