BREAKDOWN

★ VULNERABILITIES

No known vulnerabilities found in this contract

★ BACKDOORS

The owner can change different values up to a limit. On a positive note no dangerous backdoors were found.

★ FEES & FAIRNESS

There is a 6% fee on both deposits and withdrawals for a total of 12%

★ TEAM EXPERIENCE

The team has launched two previous projects and they are not new in the space

★ PRIVILEGES

There are series of privileges that can be changed up to a limit by the owner. This is not unusual in DEFI and there is no major privilege that allows a severe TVL drain (value can be raised up to a limit only). It is nonetheless advised to be prudent

★ AUDIT BONUS

An audit has been provided and can be found at

COMMENTS & VERDICT

After a code review DEFI detective considers World Cup Miner medium-risk to invest in, considering that some value can be raised by the owner and its ownership cannot be renounced since lottery-related functions will need to be called by the owner
